Type of Article:	Case study

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
I think there are still small but important things to be corrected. For this reason I request a new minor review Suggestions: 1) In Abstract, please, I ask you to observe the texts that are highlighted in blue (lines 14 and 26) and those are scratched that I suggest that they be deleted (line 15) 2) Maybe this phrase: There are paucity on information on alloimmunization in SCD patient in our environment can be substituted for: There is paucity of information on alloimmunization in SCD patient in our environment ----- 3) Maybe this phrase: (lines 55-56) The patient was a 14years old male known sickle cell anaemia (HbSS) patient that was diagnosed 13years ago with Haemoglobin electrophoresis. can be substituted for: The patient was a 14years old, male, known sickle cell anaemia (HbSS) diagnosed 13years ago with Haemoglobin electrophoresis. Corrections: 1) please, I ask you to observe the texts that are highlighted in blue (lines 48, 103 and 110) 2) In the references, please, I ask you to observe the texts that are scratched that should be replaced by those that are highlighted in blue – Lines: 161, 166, 167, 170,171, 173, 174, 179, 182, 184, 185, 188, 191, 193, 194, 195, 196, 198, 199, 200, 201, 202, 203, 205, 206, 207, 210, 211, 212, 213, 214, 215, 216 PS. At some points I just replaced with the correct way and highlighted in blue
