

Editor's comments:

After reviewing the revised manuscript, it still contains errors that must be corrected (attachment file).

1. Lines 69,70,72

Repetition still exists (gray marker)

2. Lines 9,71,77,80,86,129 (red marker)

3. Sometimes the author/s wrote

National Hospital of Niamey (HNN) and sometimes Niamey national hospital

please use the same name and abbreviation and write normally (not italic). Make attention to change all in one form.

4. Line 93 (green marker)

change 3) by 4)

5. Line 118

Erase: summarizes disease.

6. In table I

write: P in italic/

7. Lines 109,110,131 (blue marker)

Do we say: SC hemoglobin or hemoglobin SC? which is the most correct?

The same for SS hemoglobin

Don't write it in italic

8. Table II

what do you mean by SS and SC?

9. The author/s mentioned 2 times hemoglobin, the same for glucose!

10. in general, table II is not understood, the author/s must re-do it to become clearer.

Author's feedback:

1. I rephrase the sentence

2. I change "National Hospital of Niamey" by NHN

3. OK/ I choose National Hospital of Niamey or NHN

4. OK

5. OK. I rephrase the sentence

6. OK I put p in italic

7. OK. I don't write it in Italic

Heterozygous SC and Homozygous SS are correct

OK

8. homozygous SS

heterozygous SC

9. Haemoglobin and severe anaemia

Glucose and hypoglycaemia

10. I perform the table
