General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	ABSTRACT The abstract is poorly presented and should be re-written. Abstract should be presented in the following format; Background Objective Method *(not materials and method) Result Conclusion. 1. Background presented here is too lengthy. The study aimed <u>to assess</u> (at assessing) the prevalence of diarrhoea and (the) associated sociodemographic factors among children receiving care in the paediatrics department of Federal Medical Centre (FMC) Yenegoa, Bayelsa and <u>intervene improvement strategies</u> (?) based on the assessment result. 2. Result The sex of the care givers was unevenly divided (?). 3. Conclusion- Your conclusion should be based on your resarch findings. *Comments on the abstract also applies to the full text.	Abstract has been corrected Corrected in revision Added Conclusion modified
Minor REVISION comments		
Optional/General comments	A good study, however, not properly reported.	Thank you
