PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
Dear Authors, your manuscript improved a lot. However, Please make another English editing. 1. Line 115- I have revised a subtitle. 2. Lines 116-117: Please, remove a phrase "majority of". It means "the greater number", "most"...and 31.5% is not actually most. 3. in line 118 (highlighted in green) there is a sentence beginning with "A total of 333 respondents...". A total number is 400 and 333 concerns only those who are married, doesn't it? 4. Line 119- there is still "a window" instead of "widow". Please check the meaning of both words. 5. Lines 116-124- Please try to replace the highlighted words in some lines to make the text more readable. 6. Please again, correct the conclusions section (as noted before).
