SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	None	
Minor REVISION comments		
Optional/General comments	This is a well-written review on the issue of medicine-causing memory problems. Information is summarized by citing largely clinical literature. Suggestion to the author with regard to the scope of data assembly. I was wondering whether the author can provide some updates (basic aspects) on the neurobiology of learning and memory, although it is up to the author to consider whether this might help the readership of paper.
