

EDITORIAL COMMENTS:

The case report has been extensively revised but the language should be revised. There are several abbreviations (it's, can't....) and typos (Neuropsychological..., intellectual...), and wrong use of past tense. Please also consider to change the title to 'Neuropsychological rehabilitation of right brain injury: a case report')

AUTHOR'S COMMENTS:

Dear Editors!

Thank you for your comments. We have corrected our mistakes in the usage of abbreviations, some words choice and the usage of the tense. We agree with your suggestions of the changing of the title to "Neuropsychological rehabilitation of right brain injury: a case report"
