

## SDI FINAL EVALUATION FORM 1.1

### PART 1:

Journal Name:	<a href="#">International Neuropsychiatric Disease Journal</a>
Manuscript Number:	Ms_INDJ_42988
Title of the Manuscript:	MEAN PLATELET VOLUME IN DEPRESSION AND ANXIETY DISORDER-A HOSPITAL BASED CASE CONTROL STUDY
Type of Article:	Original Research Article

### PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<p>1. There has been a remarkable improvement in the reviewed paper. However, the references remain obsolete. For example, references 1-8 and many more. The authors should search the literature for current literature from 2008-2018.</p> <p>2. Ham -D only <u>measures severity of depression</u> and not <u>dysthymia or recurrent depressive disorder</u>.</p> <p>Similarly, HAM-A measures ONLY severity of GAD and not PANIC ANS SOCIAL ANXIETY DISORDER.</p> <p>The authors should not describe the results of what they have not measured. In that light, tables 4 &amp; 5 are not relevant for this study.</p>
