

## SDI FINAL EVALUATION FORM 1.1

### PART 1:

Journal Name:	<a href="#">International Research Journal of Oncology</a>
Manuscript Number:	Ms_IRJO_42388
Title of the Manuscript:	CYTO-BIOLOGICAL ACTIVITIES OF LACTAPTIN: AN INSIGHT INTO DESIGNING OF NEW CANCER THERAPAUTICS
Type of Article:	Mini review

### PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<p>This manuscript has been extensively edited and revised. There are still several grammatical errors throughout, but it is in much better form. The newly added sections 7 and 8 are riddled with grammatical errors much as the original manuscript was; the reviewer recommends editing of these new sections. Additionally, the authors cite three new articles in these last sections: is 2014 really the most recent information regarding peptide treatment for cancer?</p> <p><b>Minor comments:</b>  Lines 151-152. Poorly phrased; this section is very minimal and addresses only one reference.  Lines 180-182. Poorly phrased; needs revising.  Line 303. Extra numbering.</p>	<p>We have gone through the manuscript and made some useful modification concerning grammar. We have also added 2 new articles, one 2017 and the other one 2018.</p> <p>Line 151 – 152. We have initially made some explanation about this section 'CYTOTOXIC ACTIVITY OF LACTAPTIN' explaining MTT assay in which one of the reviewers ask to be deleted. That is why it is minimal. We have found only one article discussing MTT assay with regards to Lactaptin.  Line 180 -182: we have revised the sentence.  Line 303: Extra numbering has been removed</p>
