

SDI Review Form 1.6

Journal Name:	International Research Journal of Pure and Applied Chemistry
Manuscript Number:	Ms_IRJPAC_27100
Title of the Manuscript:	Synthesis, Characterization and Antibacterial studies of some Isoniazid-derived Schiff bases
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	This manuscript represented adequate advancement in the use of Isoniazid-derived Schiff bases for antibacterial studies. However, the following issues must be addressed. 1). Antibacterial screening of Schiff bases should also be represented as a graph for different compounds against %age inhibition. 2). The page setting and format should be considered; the whole text is running here and there and looks messy.	
<u>Optional/General</u> comments
