

SDI Review Form 1.6

Journal Name:	International Research Journal of Pure and Applied Chemistry
Manuscript Number:	Ms_IRJPAC_29657
Title of the Manuscript:	Optimized preparation silver nanoparticles from poly(ethylene glycol) and formaldehyde
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link: (<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	The manuscript has scientific sound. However before it can be published better to consider a few comments: 1. Fig. 2 seem un-logical. Redraw the graph to show the relation between particle size with respect to time, volume and concentration separately 2. Fig 3 must label as a, b, c and describe in detail in the caption 3. Increase the quality /contrast of Fig 4	
Optional/General comments
