

SDI Review Form 1.6

Journal Name:	International Research Journal of Pure and Applied Chemistry
Manuscript Number:	Ms_IRJPAC_35160
Title of the Manuscript:	Photocatalytic and physicochemical properties of pure and variously CeO ₂ -doped CuO-Fe ₂ O ₃ /cordierite system
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	1- In lines 161-179 thing do not add up , what is Cd²⁺ doing here? The text does not make any sense at all. 2- 2- in lines 169-171 there is no similarity here if one radius is two times the other ?!!!! Showing a photo-imaging in nanometre scale does not add any scientific value. The lack of theoretical background that explain the obtained results.	1. Cd²⁺ is a misprint. It has been corrected to be Cu²⁺. 2. Radius in lines 169-171 has been corrected.
<u>Minor</u> REVISION comments		The efforts done by the reviewers are really appreciated and certainly add to the quality of the work. All suggested remarks proposed by the referees have been considered in the revised version.
<u>Optional/General</u> comments
