

SDI Review Form 1.6

Journal Name:	International Research Journal of Pure and Applied Chemistry
Manuscript Number:	Ms_IRJPAC_37905
Title of the Manuscript:	CHEMICAL PRECIPITATION OF NICKEL SPECIES FROM WASTE WATER
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>The article is interesting but requires some modifications related to:</p> <ul style="list-style-type: none"> - References for points: 2.1, 2.2 and 3.2 (literatures or standards methods); - The data must be presented in graph or table (not both) so, the table 3 can be eliminated. - More conclusions (but not generalities) with obtained data. 	<p>Thanks for your comments.</p> <p>Regarding the references for points 2.1, 2.2, and 3.2, Procedures for the dissolution of nickel salt in distilled water, as well as the applied qualitative and quantitative chemical analysis techniques, are not made according to standardized norms; in any case, the chemical reagents and their sources were mentioned; the models of equipment used for the analysis of liquid and precipitated phases, may be mentioned. I will do that in the manuscript.</p> <p>In fact, Table III and graph 3 show the same information. The idea is to show changes in the numerical values of the physicochemical variables. I think both, the graph and Table should remain in the paper.</p>
Minor REVISION comments		
Optional/General comments
