Compulsory REVISION comments		
Minor REVISION comments		
Optional/General comments	This paper presented very interesting study on Inhibitive action and adsorption characteristics of Alternanthera bettzickiana extracts on the corrosion of mild steel in acidic media . The reviewer recommends the publication with the following revision. 1. There are many irregularities in English in this paper, so it should be revised seriously. 2. Discussion part is weak, this should be revised 3. Conclusions must be comprehensive and not written like a report. 4. It's very important if you added some references of 2016-2017.	1. We have worked on the irregularities in English as much as possible, it is our hope that the errors are reduced to the bearest minimum. 2. I do not agree with the reviewer that the discussion part is week. 3. The conclusion has been re – written. 4. References of 2014, 2016 and 2017 has been added.
