

SDI Review Form 1.6

| | |
|--------------------------|--|
| Journal Name: | International Research Journal of Pure and Applied Chemistry |
| Manuscript Number: | Ms_IRJPAC_37695 |
| Title of the Manuscript: | 3D-QSAR Modeling and Molecular Docking Studies on a series of 1,2,4 triazole containing diarylpyrazolyl carboxamide as CB1 cannabinoid receptor ligand |
| Type of the Article | |

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|--|---|
| Compulsory REVISION comments | | |
| Minor REVISION comments | The manuscript is of great interest for computational chemistry readers. It is well written with minor revisions necessary in language. | |
| Optional/General comments | Only <i>in silico</i> studies are involved in this paper whereas the structure activity relationship must involve the <i>in vivo</i> or <i>in vitro studies</i> also. So the author may include those studies or may add the reference for it so that visible relation between the two can be observed | |
