

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	Journal of Advances in Biology & Biotechnology
Manuscript Number:	Ms_JABB_27899
Title of the Manuscript:	Total Phenols Content and Antioxidant Power of Manuka Honey Is Related to 24hr Cytotoxicity Towards MCF-7 Breast Cancer Cells
New Title :	Manuka honey-induced cytotoxicity against MCF7 breast cancer cells is correlated to total phenol content and antioxidant power
Type of Article:	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
There are some spelling mistakes have been overlooked in the article. They are fixed on the article. Please correct those spelling mistakes.(Article can be sent as 2 spaced and font size 12)	<ul style="list-style-type: none"> - Capitalizations in "title words" and headings were noted by reviewer and have been corrected as shown in the MS version 2. There were no other spelling mistakes noted. - Spacing of MS and font size. We respectively decline this comment for the following reason: The MS version 1 & 2 were prepared using Science Domain journal template, and with meticulous attention to spacing etc. The font size, line spacing etc ideally comply with the SD template. -
