PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The work is interesting, uses appropriate tools to discuss the results and can be published. I think it would be interesting for the authors to include the quantification of the existing microbial population once this quantification is quoted in Material and methods (cfu) and some cfu values appear in the discussion of the results.	Quantification of the existing microbial population included.
