Author's feedback

We have carefully checked the mistakes you have kindly indicated us in the attached file named "Comment_Editor_1_JABB_43040_v1_A" and the new version thus generated is that we send you, attached, for your consideration in a Word file named "VERSION 2 Revised-ms_JABB_43040_v1". In this version figures 6 and 7 are the original ones, but since "Reviewer Rev_JABB_43040_Xoc" asked us for higher quality figures, we send you in the first revision version (you sent me the version that only contained the changes in text, not in figures), we also send you another version containing these revised figures, with higher quality, in another Word file named "VERSION 2 Revised-ms_JABB_43040_v1"

Both files are practically the same, since changes in figures 6 and 7 were so minor that is difficult to distinguish between the revised figures and the original ones, and consequently we will agree with whichever of them you consider more adequate.
