

SDI Review Form 1.6

Journal Name:	Journal of Advances in Biology & Biotechnology
Manuscript Number:	Ms_JABB_41709
Title of the Manuscript:	Partial Purification and Characterization of Peroxidase from Calotropis procera leaves as a Potential Tool for Remediation of Phenolic Pollutant from Industrial Waste
Type of the Article	Original research paper

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The title suggests potential tool for remediation of phenolic pollutant from industrial waste but the whole manuscript deals with extraction, purification of peroxidase and study of its properties. The role of enzyme in the remediation of phenolic pollutant is not given. The title should be changed or data for the study should be included in the manuscript.	
Minor REVISION comments		
Optional/General comments
