

**SDI Review Form 1.6**

Journal Name:	<a href="#">Journal of Advances in Biology &amp; Biotechnology</a>
Manuscript Number:	<b>Ms_JABB_34580</b>
Title of the Manuscript:	<b>Preliminary Analysis on the Genetic Variants of Some Whey Proteins and Their Relationship with Milkfat in West African Dwarf Goat</b>
Type of the Article	<b>Original Research Article</b>

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

**SDI Review Form 1.6**

**PART 1: Review Comments**

	<b>Reviewer's comment:</b>	<b>Author's comment</b> <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b><u>Compulsory</u></b> REVISION comments	Although the manuscript is well write the used electrophoretic technique has a poor resolution and the discussion is little addressed to genic polymorphism found. Finally, the analysis of only two loci is very reductive for the knowledge of milk protein polymorphism in the goat breed examined. I wonder where are the beta-lactoglobulin and the other whey proteins?	The analysis is preliminary hence the choice of only two whey proteins.
<b><u>Minor</u></b> REVISION comments		
<b><u>Optional/General</u></b> comments
