<u>Compulsory</u> REVISION comments	This is an interesting contribution to the literature of hybrid rice production and global food security. The references are solid in respect to hybrid rice production in Bangladesh and China. Methods, data analysis and results looks great. But the quality of the paper has been ruined by improper English. Most of the sentences are incomplete, not very clear, wrong, ... from abstract to conclusion. For example, P. 1, line 20 "...the temperature will increase around 1, ..." P. 1 line 21. A researcher found that rise of temperature level.... Rephrase The paper needs to be thoroughly edited for English language P. 5, line 181 What is Tralling no.1, IR24 and IR26 restorer. Those abbreviations most first be defined somewhere in the text	The whole article was read again and again carefully and improved with expert's help. Resolved Resolved Resolved Clarified
