SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The botanical names of Sp and unknown broad leaf must be identified as the paper has many unknown species. This was one of great limitations of the paper. Your abstract is very poor as It lacks the research problem (short introduction), Methods and materials are not well described, It lacks the research findings and conclusion: I suggest to you to put a recommendation for a further research. Your introduction must have a main objective What is the main objective of the paper? Introduction must point out the goal for the paper Please follow the journal guide lines for section results and discussions	We have updated the species names The abstract is revised and these information added No response No response This sections have been modified
<u>Minor</u> REVISION comments	Please all the mistakes must be corrected	
<u>Optional/General</u> comments	The paper is very interesting one as it is about Biodiversity conservation.
