

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	Journal of Agriculture and Ecology Research International
Manuscript Number:	Ms_JAERI_31649
Title of the Manuscript:	Dry Matter Accumulation, Nutrient Uptake and Nutrient Use Efficiency of Two Improved Cultivars of Taro (Colocasia Esculenta) Under Screen House Conditions in Samoa
Type of Article:	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
This revised manuscript presents the interesting information on the “Dry Matter Accumulation, Nutrient Uptake and Nutrient Use Efficiency of Two Improved Cultivars of Taro (Colocasia Esculenta (L.) Schott) Under Screen House Conditions in Samoa”, which might be a potential candidate for future applications in taro breeding and planting programs. It is well-written and clearly describes the major results of the study. The Tables and Figures are in good quality, the results are clearly presented in the abstract, and it is ready for publication.
