

Editors Comment:

Correction needs the comments below and in the draft of paper (red in color) as in the attachment.

Abstract:

- 1) Line 7 in the abstract, put space bar between the word "wasto".
- 2) Line 15, put space bar between the word "tocontrol"
- 3) Line 6, 8 and 18, put space bar to start new sentence.
- 4) Please put the full name of KNWQS, for the first time used.

Introduction

- 1) Please check back, there are many space bar not insert before start new sentence.
- Further comments as in the attachment.

Overall comment:

The paper is too long, the author needs to strengthen the sentences and highlight the important study

Author's feedback:

1, 2 and 3., and Introduction= Space bars put all through document. Please note that this effect of spacing is brought about by difference in versions of windows we are using. I use windows 07 and you might be using a more advanced version that converts after downloading. Please check my pdf format that describes no spacing errors.

4. KNWQS Kenya National Water Quality Standard written in full on first occurrence

Overall comment: Document formatted to reduce paging. I hoped for the standard formatting for this journal would reduce the pages. I have adopted font 10 to the effect. Please guide on this. Tables and figures shrunk
