

SDI Review Form 1.6

Journal Name:	Journal of Agriculture and Ecology Research International
Manuscript Number:	Ms_JAERI_41754
Title of the Manuscript:	Growth and yield response of some rice genotype under different duration of complete submergence
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Result of research should be showed the data of grain yield, not only percentage reductionof yield	1. I showed data of Yield/m ² that is enough. So, I think it is not necessary to show the data of grain yield.
Minor REVISION comments	treatment should be write followed the name of treatment not by code (for example : name of varities and treatment of submergence	1. I clearly mentioned the full form of treatment in methodology of abstract section. For that reason It is not important to rewrite treatment full form in across the manuscript.
Optional/General comments
