(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Considering that some species were not identified with the full name, don't you think that would be better to leave them as "unclassified"	There is one species of shrubs "Alanium Spp" which i am trying to find genus and two species of grasses have been corrected with their genus.
Minor REVISION comments	Please, give more information about the identification process, like: - How did you identified the species? A herbarium were consulted? - What was the species naming system used? APG IV?	The field survey in the forest during the study time has been done and local name were collected by local villagers naming Nepal Singh, Ravishankar Yadav and Rajesh Kumar Kol. These local name were converted into botanical names specialist by L. S. Kushwaha and other botanist. Their names are mentioned in acknowledgement section. It is checked by IPNI.
Optional/General comments
