Type of the Article	Original Research Article

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	The paper has contributive results and new findings.	
<b>Minor</b> REVISION comments	I suggested a basic sentence/reference for INTRODUCTION. It should be certainly used in revised version of the paper to improve the manus.	The suggested sentence and reference has been used for introduction in the revised manuscript and highlighted yellow.
<b>Optional/General</b> comments	I recommend that present version of the manus should be published after minor revision. Present Figure, Table and References should be kept in the text. Suggested new reference should be added.	All the correction done as suggested. New reference has been added in the reference section and highlighted yellow.

**PART 2:**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
