

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	Journal of Applied Life Sciences International
Manuscript Number:	Ms_JALSI_44720
Title of the Manuscript:	Comparative Effects of Spirulina and Vitamin C Against Arsenicosis in Rat
Type of Article:	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
As I indicated authors have to add obligatory groups of vitamin C and Spirulina either to orient the study for the effect of these compounds on the arsenicosis separately or in combination. Also authors did not answer the other remarks which indicated in comments paper.	In this research, the designed was made to find out the effect of arsenic and to overcome the effect of arsenic with proper treatment combination. That's why a control and a sole use of arsenic was applied to compare with the rest treatment. That's why single use of Spirulina and Vit. C was not given emphasized.
