

**SDI Review Form 1.6**

|                          |                                                                                                                    |
|--------------------------|--------------------------------------------------------------------------------------------------------------------|
| Journal Name:            | <a href="#">Journal of Advances in Microbiology</a>                                                                |
| Manuscript Number:       | Ms_JAMB_37115                                                                                                      |
| Title of the Manuscript: | Chronic Inflammation of the Tibiotalar Joint with a Lateral Malleolar Fistula: A Rare Presentation of Tuberculosis |
| Type of the Article      | Case study                                                                                                         |

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**PART 1: Review Comments**

|                                     | Reviewer's comment                                                                                                                                                                                                                                                                                            | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Compulsory</b> REVISION comments | The manuscript is compactly written and suitable as a case report.<br>1. Add page number and check the format of the manuscript.<br>2. Figure 1 and 2 needs more information. Add their caption.                                                                                                              |                                                                                                                                                                               |
| <b>Minor</b> REVISION comments      | 1. Page 1, line 1 from bottom; page 3, line 10. "mycobacterium tuberculosis" reads "Mycobacterium tuberculosis" and it should be italicized.<br>2. Page 3, line 8. What is "ESR(57)"? Explain it.<br>3. Page 3, line 9. "Ziehl Nelson" reads "Ziehl Neelsen".<br>4. Format of References should be corrected. |                                                                                                                                                                               |
| <b>Optional/General</b> comments    |                                                                                                                                                                                                                                                                                                               |                                                                                                                                                                               |
