PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	<p>This articles brings results that is interested only for the Kenyan citizen. One question authors should answer clearly is: why did the station points present different results?</p> <p>Results are poorly presented and discussed. Authors could have analysed abiotic variables that contribute to this results</p>	It has been properly explained in the analysis that the difference is due to weather conditions where coliforms are introduced by surface run off.
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
