

SDI Review Form 1.6

Journal Name:	Journal of Advances in Microbiology
Manuscript Number:	Ms_JAMB_42698
Title of the Manuscript:	PREVALENCE OF AGGREGATIBACTER ACTINOMYCETEMCOMITANS AMONG CLINICAL ORTHODONTIC SALIVA SAMPLES
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	I found an error in third and fourth column of Table 1. The number of non-orthodontic samples under 18 years and over 18 years is different from the number in the first row, third column of the Table 1 (n=45). Also, the total number of population divided by race as cited in the table is different from the number in the first row, fourth column of the Table 1 (n=1,463). The authors should carefully check the consistency of the demonstrated data in this table.	The authors have reviewed this comment and corrected this error. Our apologies for this oversight.
Minor REVISION comments	There is no need to write Orthodontic and non-Orthodontic with capital letter. Please correct this in the text.	This has been corrected in the text of this manuscript.
Optional/General comments
