PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	I found an error in third and fourth column of Table 1. The number of non-orthodontic samples under 18 years and over 18 years is different from the number in the first row, third column of the Table 1 (n=45). Also, the total number of population divided by race as cited in the table is different from the number in the first row, fourth column of the Table 1 (n=1,463). The authors should carefully check the consistency of the demonstrated data in this table.	
Minor REVISION comments	There is no need to write Orthodontic and non-Orthodontic with capital letter. Please correct this in the text.	
Optional/General comments
