

SDI Review Form 1.6

Journal Name:	<u>British Journal of Mathematics & Computer Science</u>
Manuscript Number:	Ms_BJMCS_29001
Title of the Manuscript:	A Fixed point theorem for mapping satisfying a general contractive condition of integral type with w-distance
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	• In abstract spelling mistake in "integral" and how many mappings you have used please specify. • Definition of 'w-distance' is not written complete. • In main results section in first line please delete "In here". • Main result cannot be proved without using "Lebesgue dominated convergence Theorem". Please write it and use it while proving theorem. • Please write prove of theorem in proper manner. • Write between page numbers "-" in the last reference.	1- Corrected . 2- We checked definition of "w-distance" in references again and didn't find better. 3- Corrected . 4- We added this theorem. 5- We try to write in proper manner. 6- Corrected .
Minor REVISION comments		
Optional/General comments
