

SDI Review Form 1.6

Journal Name:	<u>British Journal of Mathematics & Computer Science</u>
Manuscript Number:	Ms_BJMCS_34336
Title of the Manuscript:	Convergence Analysis of a Non-overlapping DDM for Optimal Absorbing Boundary Control Problems Governed by Wave Equations
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	Manuscript is very long.	We shorten the manuscript by omitting some intermediate, and easily understood processes of the proofs for some lemmas. We do our best to shorten the length. In order to show the contents clearly, we can't decrease more much.
<u>Optional/General</u> comments	Generally, manuscript is well designed and very apprehensible. The milestones of manuscript are control problems and regarding approximation schemes. Results are looking true, interesting and encouraging. References are enough for this study. There is a novelty in applied mathematics i.e Control theory.
