

SDI Review Form 1.6

Journal Name:	Journal of Advances in Mathematics and Computer Science
Manuscript Number:	Ms_JAMCS_34912
Title of the Manuscript:	Oscillation of Second Order Difference Equation With a Superlinear Neutral Term
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments	Manuscript is very equipped with Oscillation Analysis. I read it tastefully. In my view, given examples have been milestones in this paper. Authors have been successfully applied theorems to examples. The proofs are theorems are looking true and very interesting. Authors developed a novelty to regarding of area. Manuscript is very bright, well designed, fluent, apprehensible and useful in area of applied mathematics and analysis. References are enough for this study.	Yes agreed. Thanks for the reviewer.
