

SDI Review Form 1.6

Journal Name:	Journal of Advances in Mathematics and Computer Science
Manuscript Number:	Ms_JAMCS_35755
Title of the Manuscript:	Finite time blow-up, extinction and non-extinction of solutions for an evolutionary problem
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	This manuscript considered a class of p -biharmonic parabolic equation with nonlocal nonlinearities and Neumann boundary condition. By constructing suitable auxiliary functions and using some inequalities, the criterion on blow-up of the Solutions has been given. This result is interesting, and the problem is a distinguished elliptic topic, so I recommend this paper to be accepted for publication.	Revised
Minor REVISION comments		
Optional/General comments
