PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	The paper is sound, the reported results are interesting. But, I recommended a careful check of the paper, looking for typos and the improvement of the writing. For example 1. The difference equation (first line of Theorem 2.1) could be presented with subindexes. 2. Periods at the end of some lines are necessities. 3. Include the year of reference [8].
