

Journal Name:	Journal of Advances in Mathematics and Computer Science
Manuscript Number:	Ms_JAMCS_36521
Title of the Manuscript:	Achieving System Reliability with the Fewest Identical Components
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	1.In Page 1, in 2010 Mathematics Subject Classification, it should be added another number, it is not only 90C99. 2.In page 2, line 13, "The main result" should be deleted. 3.In page 4, line 9, "required to achieve the reliability goal" should be modified to "which are required to achieve the reliability goal". 4. In page 7, line -1, the typeface of "x" should be modified to " x_i ".	I am very grateful to this reviewer for taking the time to read through my manuscript. I agreed with the reviewer and I made the recommended adjustments. Again, I am grateful for this reviewer's contributions to my work.
<u>Optional/General</u> comments
