PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	Changes which must be made before publication 1-The authors should clearly mention the objective of the study in the introduction section. 2- All Figures need to be enhanced in quality as well as clearance. 3- Please discuss the ability of the model to capture dynamic effects.	The objective of the study has been added. Figures enhanced in quality and are now clear
<u>Optional/General</u> comments	Overall originality of the manuscript is acceptable level but the organization and the presentation of the study is weak. This paper should be improved in the light of comments so that the quality of the paper is increased.	Organization and Presentation of the manuscript have been improved. I have done it in two ways. Kindly pick the one which is most appropriate. Thank you.
