

SDI Review Form 1.6

Journal Name:	<u>British Journal of Mathematics & Computer Science</u>
Manuscript Number:	Ms_BJMCS_33436
Title of the Manuscript:	Eigenvalue problem with the basis exchange algorithm
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	The article presents a new method for solving the eigenvalue problem. The authors need to include (i) An evaluation of the efficiency of the method with error estimates. (ii) At least one example.	
<u>Minor</u> REVISION comments	Minor spelling and other mechanical errors must be corrected. For example, on page 2, missing colon mathematical expression below equation (1), "standardized" is wrongly spelled in last but one paragraph; page 3, "according" should replace "accordding". Check equation (38), *?	
<u>Optional/General</u> comments
