PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	1. Extended form of the MDGKN must be given in text. 2. "Abstract" section should be re-written as an abstract that is including results and at least some important concluding remarks. 3. The novelty of the paper is missing. This matter should be clarified. 4. Where are the Example 2 and 3? ☹ 5. None of the references have been cited in the text. Why? 6. References section must be renewed with the recently published papers , especially in the prestigious journals. 7. Concluding remarks should be re-written. 8. The language of the article MUST BE checked by a native English speaker. There are so much both typo and grammatical errors in the manuscript. 9. All of the contents of the paper are well-known matters and can be found in most of the Control Engineering books. The main contribution of the paper MUST BE given in the paper clearly.
