Title of the Manuscript:	ON THE STABILITY ANALYSIS OF LINEAR SYSTEMS WITH CONTROL PARAMETERS
Type of Article:	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
Still following deficiencies exist in the paper. 1. Extended form of the MDGKN must be given in Abstract. 2. "Abstract" section HAS NOT BEEN re-written but MUST be re-organized as an abstract that is including results and at least some important concluding remarks. Additionally, the main contribution of the paper MUST BE given in the paper clearly. 3. The novelty of the paper is missing. This matter should be clarified and should be expressed in the <u>Introduction</u> section. 4. References section STILL must be renewed with the recently published papers, especially in the prestigious journals. 5. Concluding remarks HAS NOT BEEN be re-written, but MUST BE re-written. 6. The language of the article MUST BE checked by a native English speaker. There are so much both typo and grammatical errors in the manuscript.
