

SDI Review Form 1.6

Journal Name:	Journal of Advances in Mathematics and Computer Science
Manuscript Number:	Ms_JAMCS_35743
Title of the Manuscript:	Chiral Structure of Free Particles Bound by Magnetic Forces
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Following comments are compulsory. These will be helpful in future for researchers and will also improve the article. 1. In abstract, authors should mention only new findings with applications and what methods they have used. They Should not mention any theory. So abstract must be revised. 2. Author should mention ten boundary conditions and four adjustable parameters. 3. Is there existence of strong bound system. If yes, what type of force such as nuclear, electromagnetic, etc. will originate from that system and why?	
Minor REVISION comments		
Optional/General comments
