Compulsory REVISION comments	In the article, The author(s) proved some fixed point theorems in prasic type mappings on Gp-metric spaces. I think it would be useful to publish this article in your journal after a little correction in the language of the article. For example, - The first sentence of abstract should be written as follows: In this paper, we introduce some fixed point theorems in presic type mappings on Gp-metric spaces. - Gp metric is sometimes written as Gp metric, sometimes as Gp-metric. - The reference numbers are given in some places in italic, flat in some places - Let k a positive integer etc. Similar grammatical errors should be corrected.
