

**SDI Review Form 1.6**

|                          |                                                                          |
|--------------------------|--------------------------------------------------------------------------|
| Journal Name:            | <a href="#">Journal of Advances in Mathematics and Computer Science</a>  |
| Manuscript Number:       | <b>Ms_JAMCS_36521</b>                                                    |
| Title of the Manuscript: | <b>Achieving System Reliability with the Fewest Identical Components</b> |
| Type of the Article      |                                                                          |

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**PART 1: Review Comments**

|                                     | <b>Reviewer's comment</b>                                                                                                                                                                                                                                                                                                                                                                                        | <b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Compulsory</b> REVISION comments |                                                                                                                                                                                                                                                                                                                                                                                                                  |                                                                                                                                                                                      |
| <b>Minor</b> REVISION comments      | 1. In Page 1, in 2010 Mathematics Subject Classification, it should be added another number, it is not only 90C99.<br>2. In page 2, line 13, "The main result" should be deleted.<br>3. In page 4, line 9, "required to achieve the reliability goal" should be modified to "which are required to achieve the reliability goal".<br>4. In page 7, line -1, the typeface of "x" should be modified to " $x_i$ ". |                                                                                                                                                                                      |
| <b>Optional/General</b> comments    |                                                                                                                                                                                                                                                                                                                                                                                                                  |                                                                                                                                                                                      |
