

SDI Review Form 1.6

Journal Name:	Journal of Advances in Mathematics and Computer Science
Manuscript Number:	Ms_JAMCS_39176
Title of the Manuscript:	Existence of Global Attractor for Cahn-Hilliard perturbed phase- eld system with Dirichlet boundary condition and regular potential
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments		
<u>Minor</u> REVISION comments	The authors addressed the topic of interest to many authors in these studies. Cahn-Hilliard perturbed phase-field system is the topic of discussion. They deal with the problem stated by the equations (1.5)-(1.8). They have studied the existence and uniqueness of this problem. This is an original work in this respect. The following corrections are made to run once: 1) Attention should be paid to the formatting of references. 2) Page 3, 2 nci paragraph, "inequalities"? 3) Page 6, theorem (4.3), attention should be paid to the right side margin.	I appreciated your comments, and after making corrections, I send you the revised paper.
<u>Optional/General</u> comments
