PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
There are still some grammatical errors in the manuscript. I refer authors to the conclusion section of manuscript. Some of the earlier concerns were not addressed. Page 2 paragraph 1. Change to “where $F(X)$ and $f(x)$ are”. Page 2 paragraph 1, line 2. Change to “where $G(X)$ and $g(x)$ are”. Page 3. In the first sentence under Maximum Likelihood estimation (MLE), the “follows” should be change to “following....”. Bold emphasis should be placed on vectors in all mathematical expressions and equations. I refer authors to the Bayesian estimation section.
