

SDI Review Form 1.6

Journal Name:	Journal of Advances in Mathematics and Computer Science
Manuscript Number:	Ms_JAMCS_43054
Title of the Manuscript:	Modeling Exponential growth and Exponential Decay Real Phenomena of by ψ – Caputo Fractional Derivative
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Summary of the article - should be improved, broadened. Please, clearly summarize in the summary what is the purpose of the article and what is the research hypothesis analyzed in the article. "Lightly" describe what the article contains, so as to encourage reading the article. The summary of the article should encourage the reader to read the article, and unfortunately he does not encourage it in its present form.	
Minor REVISION comments	Provide the source of each definition. The article is valuable.	
Optional/General comments	Provide the source of each table. The article is written correctly. In my opinion, it contains interesting content.
