

**SDI Review Form 1.6**

|                          |                                                                         |
|--------------------------|-------------------------------------------------------------------------|
| Journal Name:            | <a href="#">Journal of Advances in Mathematics and Computer Science</a> |
| Manuscript Number:       | <b>Ms_JAMCS_44424</b>                                                   |
| Title of the Manuscript: | <b>Metric on the countable Soft Topological Space</b>                   |
| Type of the Article      |                                                                         |

**General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://www.sciencedomain.org/page.php?id=sdi-general-editorial-policy#Peer-Review-Guideline>)

**PART 1: Review Comments**

|                                     | Reviewer's comment                                                                                                                                                                                                   | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Compulsory</b> REVISION comments | <b>Definition 1.2: lack of subindex in B</b><br><b>Denotation 1: a better name is "Notation 1"</b><br><b>Definition 2.6: lack of space in distanceas (distance as)</b><br><b>Proposition 2.1; proof: "Euclidcan"</b> | We have modified these errors.                                                                                                                                                |
| <b>Minor</b> REVISION comments      | Define soft point<br><br>Make clear whether or not this metric is useful for soft points                                                                                                                             | We have defined the soft point in Definition 2.2.<br><br>We have made it clear that this metric is useful for soft points in the remark 2.1.                                  |
| <b>Optional/General</b> comments    | Writing is not totally clear                                                                                                                                                                                         | We have revised the sentences as possible as I can.                                                                                                                           |

**PART 2:**

|                                                     | Reviewer's comment                                                           | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-----------------------------------------------------|------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Are there ethical issues in this manuscript?</b> | <i>(If yes, Kindly please write down the ethical issues here in details)</i> |                                                                                                                                                                               |
