

Editor's Comment:

The authors have improved the work and substantially meet the requirements of referees. During the editorial work they could improve the text, specifying the significance of some abbreviations, such as M+/-m,PBP and so on I would like to inform you that it was found to be suitable for publication in e: British Journal of Medicine and Medical Research Journal.

Editor's Details:

Dr. Andrea S. Melani
Antismoking Centre, Azienda Ospedaliera Senese, Italy
