New title	<b>ADENO-HYPOPHYSEAL CONSEQUENCE OF UTERINE FIBROID AND THE EFFECTS OF GINGER EXTRACT ON THE MONOSODIUM GLUTAMATE-INDUCED TUMOR</b>
Type of Article:	<b>Original Research Article</b>

**PART 2:**

<b>FINAL EVALUATOR'S comments on revised paper (if any)</b>	<b>Authors' response to final evaluator's comments</b>
<p>Thank you for your revision of the manuscript. There are two minor comments that need to be corrected 1) in the abstract change the first word in the results section as see my example below 2) Do not use the word "inclusions" starting of the sentence. Delete "Conclusions to be drawn from this study is that" and add a sentence or two explaining how ginger prevented and reversed these effects.</p> <p>1.Example of results revised or you may insert your own verbiage:  <b>Results: The MSG-induced uterine fibroid showed abnormal effects on the pituitary gland histology and in the level of Luteinizing and Follicular Stimulating Hormones, while ginger extract reversed this effect.</b></p> <p>2. "While ginger prevented and reversed these effects".</p>
